

PROFILE

Experience of about 7 years working as a Freelance. Knowing different areas in "design, SEO and web developer"

I love learning things I could improve or help to reduce work time. My focus is on the entire visual field, studying animations, user experience and user interface.

Each project is a mark of my work, so I am aware of doing an exceptional project (It is my reputation). For that reason, I would like to be in a team where I can do great projects and challenges

NORMAN JAIMES MORA

Fullstack Developer / Designer

TARGET

Have the skills necessary to become an indispensable programmer

WORK EXPERIENCE

[Web Portfolio](#)

CHIEF TECHNOLOGY OFFICER / OCT 2022 - Actual

Pharmed.IA: As a freelance, I have the possibility to build and design a complete App and a Landing Page. Thinking from the basics like Design, Database, Security, Server, Front-End and Back- End.

Using: React (Next.js), Firebase, CSS, HTML, Vanilla js, Figma, Node.js

SEMISENIOR WEB DEVELOPER / NOV 2021 - Actual (Hybrid)

Casa Editorial El Tiempo: We make fantastic web pages with dynamics on any news at the National or International level. "We show the news with style".

Using: HTML (Pug.js), CSS (Scss), JavaScript (Vanilla), SEO, Json and A-frame

- We were nominated many times in important awards of "design", "journalism" and "Documentaries".
- [We won the CPB awards 2023 with "Estudiando Con el Enemigo"](#)
- [Honourable mention at the SIP Awards with "Carlos III"](#).

FREELANCE / FEB 2016- Actual

Web Designer: Developing web pages to companies that want to position themselves in the new digital era for their markets and stand out from their competition.

Or People that needs to "be" on internet with their services.

Using: HTML, CSS, Javascript, Git, DataBases, Figma, SEO, Sells, And User experience.

STUDIES

[View My Certificates Here](#)

WEB DEVELOPER AND GRAPHIC DESIGN / ABR 2016 - At Present

EDTeam: Acquiring information about design, programming and operation of virtual servers. Getting to carry out the necessary projects for any client that needs to position their company on the Internet.

OBTAINING A DIPLOMA IN ADMINISTRATION AND DEVELOPMENT IN WEB PROJECTS.

Virtual Platforms (Udemy, Platzi, Private Courses): Studying with bootcamps, videos courses and any web / Design "challenge".

Right now, I'm studying a "Master" in; React.js, MongoDB, PostgreSQL, Express.js and Node.js (MERN & PERN FullStack).

GRAPHIC DESIGN / NOV 2015- MAY 2017

SENA: Servicio Nacional de Aprendizaje: Training in the fundamentals of design, and in the development of ADOBE programs
